

# If I had my Own Wings...

## Option 1:

Print these wings as large as you like and decorate them to match your personality. Then cut them out and fasten them together with a ribbon or brad by poking holes through the black dots and put them on display.

## Option 2:

Print these wings to the size you want to wear and trace the pattern onto Felt material (or another sturdy fabric of your choice). Then cut them out and stitch the edges to avoid fraying, and poke holes through the black dots with elastic or fabric strips to fasten the wings together and make straps.

**Enjoy wearing your wings!**
